

***Emerging Trends in Public and Private
Partnerships “A Study In Success”
October 24, 2005 9:00 AM to 4:00***

Pierce County Library Administrative Offices

Due to high demand for this seminar advanced registration is required

Description: This seminar will look at very successful partnerships that have crossed the lines in public and private agencies resulting in mutual cooperation, early notification, and planning to prevent, respond to, and mitigate criminal and terrorist activities. This will be an open forum with presentations and question and answer periods from Washington State and Private Industry Officials. The intent of this seminar is to inform participants of on going efforts in Washington State to foster successful partnerships across traditional public and private boundaries a changing paradigm in our State.

Participants: Building Managers, Security Professionals, Security Managers, Safety and Security Supervisors, Security Officers, Clients of Security Services, Law Enforcement, Crime Prevention Officials, Human Resource Professionals anyone who interacts with the public and corporate arenas in a security or law enforcement capacity.

Registration: Advanced registration is required and space is limited to the first 90 attendees.
To guarantee a space payment must be received in full.

For reservations contact the ASIS Olympic Mountain Chapter 076:
